Who Should Apply

Applicants must have current list eligibility for appointment to this class, be eligible for a Training and Development Assignment or be a State employee who has transfer eligibility or is currently in the Systems Software Specialist II (Technical) classification, Applications will be screened for eligibility and only those that best meet the requirements of the job will be considered. Appointment is subject to SROA/Surplus provisions.

Why Apply?

The California State Lottery is looking for self-motivated IT specialist, that has passion, determination, and ambition to create an optimal customer experience for our Back Office applications. This place makes dreams come true every day while we enhance the educational experience of our California students. This is a unique opportunity for employment in the Gaming Industry while working towards a State retirement.

What you will do:

Develop and maintain applications and databases by evaluating client needs; analyzing requirements; developing software systems. Consult with business users to identify current operating procedures and to clarify program objectives. Review, analyze, and modify application systems and programs, including designing, coding, testing, debugging, documenting, and installing applications to support the organization's business information systems. Provide enhancements and support for a portfolio of internally developed systems and Commercial-Off-the-Shelf (COTS). Leverage keen problem analysis and application level code in the support of production systems.

Need more reasons to apply? Come work in our award winning "Green" building with near-by walking trails and free on-site gym. We have free parking! Own an electric vehicle? We have electric vehicle charging stations.

Desirable Characteristics and Qualifications

Competitive applicants applying for this position will have:

- Bachelor's degree or Associates degree and 3+ years practical Software Development Life Cycle (SDLC) experience in data processing.
- Programming proficiency in one or more of the following languages: C#, Java, PHP, Python or Visual Basic. Scripts, tools, and web technology: HTML, CSS, JavaScript, Database administration, SQL, and REST Web services. Strong understanding of system architecture, testing, and development.
- Experience in supporting products from integration test, beta and through release.
- Bilingual skill desirable, but not required

Equal Opportunity Employer: The State of California is an equal opportunity employer to all regardless of age, ancestry, color, disability (mental & physical), exercising the right to family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding and related medical conditions), and sexual orientation.

Background Investigation: The California State Lottery Act provides that no person may be hired as an employee of the Commission if that person has been convicted of a felony or any gambling related offense. A background check will be required.
