# MEMORANDUM

**To:** All Interested Parties

**From:** Dennis Sequeira  
Interim Director

**Subject:** California State Lottery Education Allocations

**Date:** November 9, 2004

The enclosed report summarizes and itemizes, by county, disbursements from the Lottery Education Fund made by the California State Lottery (Lottery) to public educational institutions across the state for FY 2003-04.

The Lottery was established to provide supplemental funding for education in California. Specifically, the Lottery must provide at least 34% of all revenue, unclaimed prizes, and interest in the form of supplemental funding for public education in California. At the end of FY 2003-04, the Lottery has generated almost \$16 billion, or 37.18% percent of revenues, for California's public schools.

FY 2003-04 was the fourth consecutive year that the Lottery provided over \$1 billion to public education in California. Revenues from the Lottery generated \$1.094 billion, or over \$131 per pupil, helping to support over 8.3 million students statewide.

Lottery funds are not distributed only to K-12 schools. Lottery funds support students in all areas of public education including community colleges, the University of California, the California State University, adult education, and charter schools. A summary of Lottery funding by recipient type and county is included in the report.

A recent report from the California Department of Education to the Legislature stated that Lottery funds are primarily used to support two areas in education – teacher salaries and instructional materials. Specifically:

- 77% of Lottery funds are spent on salaries and benefits for educators. This money helps school districts fund class-size reduction programs, hire classroom aids, nurses, school psychologists, and specialists.
- 18% of Lottery funds are used to buy instructional materials for the classroom including textbooks, classroom supplies, computers and software, library books, and laboratory equipment.
- 5% of Lottery funds are used to support other programs and services.

This report also itemizes Lottery funding based on Proposition 20 which stipulates that 50% of funding above the FY 1997-98 benchmark be spent on instructional materials on a per-student or average daily attendance basis.

Even though Lottery funds only account for approximately 1.3% of all education funding, they provide school districts the flexibility to keep valuable programs and services for students.
