To All Interested Parties:

The enclosed report summarizes disbursements from the Lottery Education Fund to public education institutions by county for the first quarter of Fiscal Year (FY) 2016-17. This report also itemizes Lottery funding based on Proposition 20, a publicly approved ballot initiative, which stipulates that 50% of funding above the FY 1997-98 benchmark be spent on instructional materials. All Lottery funding is distributed on an Average Daily Attendance (ADA) basis by the State Controller's Office.

The California State Lottery was established to provide supplemental funding for public education in California. During the first quarter of FY 2016-17, the Lottery continued to provide sales revenue along with unclaimed prizes and interest, in the form of supplemental funding for public education in California. In FY 2015-16, the Lottery generated \$1.5 billion for public education, making it the sixteenth consecutive year that more than \$1 billion has been transferred to public education.

Lottery funds account for less than 1.5% of all education funding. Funds are distributed to K-12 schools, community colleges, the California State University, the University of California, the Hastings College of the Law, the Department of Corrections & Rehabilitation-Division of Juvenile Justice, the Department of Education-State Special Schools, the Department of Developmental Services, and the Department of State Hospitals.
