

Request an Evaluation

Contact us about becoming a California Lottery retailer

Thank you for your interest in becoming a California Lottery retailer. The California Lottery has contributed more than \$34.2 billion to public education since the first ticket was sold in 1985 and we couldn't do it without our retailers.

The California Lottery is currently seeking new, qualified retailers that are interested in partnering with the California Lottery to sell Lottery Products supporting California Lottery's mission to provide supplemental funding to education.

If you believe you have what it takes to be a successful California Lottery Retailer, please complete the information below to request a retailer evaluation and a Lottery Sales Representative will contact you within 10 business days with more information. **This is not a retailer application, but a request to be contacted for an evaluation by the California Lottery.**

Please complete request form
