To All Interested Parties:

The enclosed report summarizes disbursements from the State Lottery Fund to public education institutions by county for the third quarter of Fiscal Year (FY) 2022-23. California State Lottery (Lottery) funding is based on the average daily attendance for K-12 and community college school districts and by full-time enrollment for higher education and other specialized institutions. This report also itemizes funding based on Proposition 20, a publicly approved ballot initiative, which stipulates that 50% of funding above the FY 1997-98 benchmark be spent on instructional materials. Lottery funds are audited and distributed quarterly to beneficiaries by the State Controller's Office (SCO).

The Lottery was established to provide supplemental funding for public education in California. During the third quarter of FY 2022-2023, the Lottery continued to provide sales revenue along with unclaimed prizes and interest, in the form of supplemental funding for public education in California. FY 2021-22 marked the first time the Lottery has transferred more than \$2 billion to public education in a single fiscal year and the twenty-second consecutive year that more than \$1 billion has been transferred.

Lottery funds account for less than 1.5% of all education funding. Funds are distributed to K-12 schools, community colleges, California State University, University of California, College of the Law - San Francisco, Department of Corrections & Rehabilitation - Division of Juvenile Justice, Department of Education - State Special Schools, Department of Developmental Services, and Department of State Hospitals.
