WHERE: This meeting will be held remotely. See above for meeting information.

The California Lottery's mission is to provide supplemental funding to California public schools, including kindergarten and grades 1-12, community colleges, the California State University, the University of California, and other California public educational entities. The funds the Lottery transfers to public education total approximately \$1.8 billion for fiscal year 2018-19, which amounts to a modest percentage of education's overall budget. However, this funding is largely non-discretionary, meaning schools can use this for important, yet unfunded instructional programs they would otherwise not afford. During the same period the Lottery generated almost \$7 billion in sales, more than 95% of which goes back to the community in the form of prize payments, retailer commissions and bonuses, and

contributions to education. The California Lottery urges its customers to play responsibly. Problem gambling resources are available to anyone at 1-800-GAMBLER.
