Lucky Store Strikes Again With a $50 Million Jackpot

Family-Owned Village Spirit Shoppe Mints Its Third Millionaire

SACRAMENTO – It appears proverbial lightning has struck again – not once, not twice, but three times at Village Spirit Shoppe in Westlake Village, where their recent sale of a *Super Lotto Plus*® ticket worth $50 million was not the only multimillion-dollar win in the past decade.

Fresh *Millionaire Made Here* signs from the California Lottery have just gone up at the family-friendly convenience store, at 4601 Lakeview Canyon Road, which has become one of California's luckiest retail partner locations with a growing legacy of wins.

"My family has owned the shop for 30 years; my mom is the owner," Mimi Shon recently told the California Lottery.

Back in March of 2021, the same store also sold a winning *Ultimate Millions* Scratchers® game worth $10 million. And in 2017, another player walked away with a $3 million prize with a *Set for Life* Scratchers game from the lucky retailer.

Not limited in luck to big winners, in March of this year, the Shoppe sold a *Fantasy 5* ticket worth over $63,000, and on September 1, they sold a *Powerball*® ticket matching four numbers and the Powerball, which earned a $23,525 prize.

With all this luck, Mimi is looking forward to the possibility of a nice vacation from the $250,000 bonus her family's store earned thanks to the big win.
